

# FIRE BELL

## BRASS

Fire Bells are an integral part of the Fire services, and used in Fire Stations, on Fire Tenders, etc. Made of brass, fire bells provide the means to warn people about the movement of the Fire Service, with their typical sound. At the same time, a well kept, shining bell is representative of a disciplined and efficient Fire service.

**Brief Description :** AAAG Fire Bell, as per IS:928, made of brass, 10" size, complete with spring, nut and leather strap for operating the clapper. Bell can also be chromium plated (optional).
