

# MULTI-EDGE FIREMAN AXE

CARBON STEEL (FORGED), AS PER IS:5505

The Multi-Edge Fireman Axe is a multipurpose Fire service tool, carried by Firemen for firefighting and rescue purpose. The Axe can be used for breaking locks, piercing doors, cutting wood, metal sheets and similar applications. The axe has an insulated handle, and hence can be safely used on live electrical wires.

**Brief Description :** AAAG Multi-edge Fireman Axe, made of Forged Steel (hardened), and having insulated rubber handle, for Fire service use. Axe has a serrated edge for piercing wooden doors/windows.

## 1.0 GENERAL DATA
