# Newsletter Highlight

Unmanned Aerial Firefighting System (UAFS) - A cutting-edge solution for early urban fire intervention. This system combines hybrid foam technology with a UAV, capable of extinguishing fires at heights. It's a revolutionary advancement in firefighting technology, ensuring heightened safety and protection in urban areas.

## Innovative New Product

## Inside The Issues

- Our company is committed to giving back to the community. This month, we have contributed to GSFC University for the FirePlex or Agnisankul, a state-of-art Fire Safety and Training Facility.

---

- We participated in **Intersec Riyadh 2023** and received an **outstanding response from visitors.**

## FirePlex/ Agnisankul

Approved by the Director of Industrial Safety & Health (DISH), Govt. of Gujarat, under Section 111A of the Factories Act, 1948.
